Bothell, WA 98011

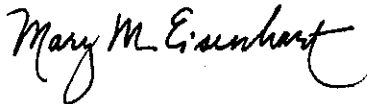

Dear Steve:

[REDACTED]
[REDACTED] The floors look even more beautiful than we thought they would, and have really completely changed the interior of the home. Besides the lasting benefit and quality of changing to wood floors, we feel that we have also added a great deal to the value of our home.

Your workmen were very nice, and most helpful when I was at the house, which was also appreciated. Thank you for the extra time you took to explain all of the details to both Dan and me; even though this is an everyday occurrence for you, it was a big step for us.

Please let me know, if you have any questions at all, as I would be happy to help. Thanks again for the beautiful job!

Sincerely yours,

Mary M. Eisenhart
