I also wanted to take a minute and thank your office and all of the crew members that worked on our project. I especially wanted to thank Eric, Adrian and Scott for their extra effort because I know the project had some challenges.

The extra effort to lace in the floor from the dining room to the kitchen and to keep the level of the floor the same throughout the dining room, kitchen and family room was a challenge but their efforts show in the final results. Please extend our appreciation and thanks to them and to all of your team members.

Sincerely,

Jim Peltzer
